

GTS Snap-in and Bubble side window protectors are custom designed for a perfect fit, for most late model vehicles. These side window guards reduce window fogging and refresh the air within the vehicle interior and are designed to create a cool and noiseless vehicle interior. Made of GTS proprietary Compositelite material, the side window guards attach without

any drilling or modification to your vehicle. Comes complete with installation instruction and hardware.. The GTS Bubble Gard uses 3M tape adhesive for a permanent solid mounting to the vehicle. All GTS Bubble Gard are available in 2 door fitments only while the GTS Snap-in Gard is available in 4 door fitments.
